the study of ancient Greek and Chinese
philosophies**

International Scientific Conference

How Legitimate is the Philosophical Canon?

Concrete Applications from Greek and Chinese Philosophies

Like other philosophies of the world, Chinese philosophy is largely unknown to Greek academics and students, who have traditionally focused on the philosophical canon established through European historiography of philosophy and academic practice during the 19th and 20th centuries. The Thessaloniki conference aims not only at promoting knowledge about ancient Chinese philosophy but also at revealing neglected aspects of Greek philosophical thought and practice by looking at Chinese philosophy as a mirror.
